EXTRAORDINARY BATHROOMS

About

By exploring new languages, we pursue an idea of unconventional bathrooms featuring no ordinary products for those who are always looking for something different.

Brainchildren of partnerships with Italian and international design studios, our collections approach different styles with a contemporary twist along with a unique and original aesthetic. Modularity, versatility and functionality are the key features of Ex.t pro-

ducts, proposing the bathroom as a dynamic space able to transform and renew itself continuously, meeting the needs of contemporary living.

We love Tuscany and Florence, our homeland.

That's why our production is 100% local: Ex.t products are made by artisan laboratories and manufactures dedicated to carry on the tradition of Made in Italy through an ongoing innovation process.

MADE IN ITALY

About

Production

“We’ve got a history of championing local artisans. Ex.t products are skillfully crafted in Tuscan laboratories where the latest generation of masters carry on the tradition of Made in Italy with an eye on innovative techniques and the most refined materials”

About

Our production is 100% local, all Ex.t products are made in Tuscany. Each product is the result of an accurate multi-level process delivered with great commitment and passion by all our craftsmen. Quality materials, at-

tention to detail, traditional processes combined with technological innovation along with refinement and style: these are the features Made in Italy that make Ex.t products.

Marcante-Testa

Nostalgia

Collection

A collection of bathtubs, bathroom furniture and mirrors with a retro flavor, blurring the subtle edges of contemporaneity through an unpredictable use of colours. Marcante-Testa studio created an original bathroom project that recalls familiar objects and shapes, conveying reassuring sensations.

Nostalgia is designed to furnish countryside and city spaces that want to preserve the memory of their past through a traditional aesthetic made current by contemporary signs and details.

Frieze

Collection

Inspired by “entablatures” series by Roy Lichtenstein, the project is articulated through different levels of signs, materials and colours where the washbasin stars as central element of the bathroom. The architectural approach of the designers involves the entire spatial dimension of the bathroom: the position of the sink is defined by a central band, available in different materials and colours, creating space to install mirrors, shelves, furniture and towel hooks.

Nouveau

Collection

A collection of washbasins, cabinets, mirrors and showers featuring geometric and sinuous lines, born from a balance of basic and classic shapes such as circles, semi-circles and parallelepipeds, creating a game of volumes in a succession of full and empty spaces. Freely inspired by early twentieth century Art Déco, the collection takes refined suggestions from that era and reworks them with the taste and sensitivity of a contemporary perspective.

Stand

Collection

Iconic collection inspired by the Modernist style of 1920s and 1930s interiors, Stand design features the original spirit of Nordic design. Geometric purity, simple naturalness and sober authenticity coexist in a perfect balance between functionality and aesthetic, giving life to objects that are sculptural and elegant yet light and airy at the same time.

Frame

Collection

Frame is a modular system of bathroom consoles and furniture. The collection features a straight and minimalist design, turning in a delicate piece with a Nordic allure. A flexible system consisting of a number of graphic frames, customisable depending on your needs and with a functional purpose.

The main structure is designed to accommodate the basin as well as a counter top in various materials. Thanks to its versatility, Frame is a perfect solution for any living space.

Sebastian Herkner

Plateau

Collection

Plateau Collection is inspired by the idea of playing and experimenting with shapes and colours to create a set of products that are stylish as well as useful and versatile. That's how a sidetracking plateau came up, becoming the stylistic leitmotif for the entire collection. Functional and elegant, this detail is a feature in every piece from the bathtub and washbasin to the mirrors, just as a shadow in movement sets down on different surfaces whilst keeping its shape.

Collection

Sebastian Herkner

Ribbon

Collection

Featuring a bathtub, a console and a washbasins Ribbon collection is designed by Sebastian Herkner. The concept is developed starting from the metal band put under the washbasin, which combines support functionality and aesthetic along with giving brightness and refinement to the product. From here the featured materials merge together creating a contemporary product with a strong personality.

A square-shaped wall-mounted washbasin of small dimensions, designed for cosy spaces. Like the oval sink and the bathtub, Ribbon Square features functional and aesthetic elements that give brightness and sophistication to the product.

Arco

Collection

Arco is a product characterized by functional versatility and material blend. Conceived for the bathroom, Arco can turn into a design for many spaces by adding or taking off different elements. Arco is available in matt black and brushed brass, with an integrated mirror and a shelving system hiding on the back which increases the functionality of the object.

A series of smaller mirrors with hidden shelves complete the collection: Arco Mirror (available horizontal and vertical) and Arco S Mirror.

Conceived by the designers as accessories, these mirrors offer many options: they can be set together thanks to a game of different depths or used as single objects in many living spaces.

Norm Architects

Rest

Collection

Rest is the collection of seating designed by Norm Architects which include poufs, a lounge chair and a daybed.

A small pouf available in two sizes with seatings in linen and wool in addition to the regular selection of upholstery of the line.

The design of Rest Lounge Chair is inspired by the way Japanese people use to sit on the floor and lean on the surrounding furniture to rest: thus, the low and wide backrest can be a regular support for the back when in a sitting position or a comfortable support for a short rest if standing.

Collection

Lamps

Peacock

Peacock is a minimal lamp that reveals its hidden beauty as you pass by. A domed borosilicate glass diffuser is neatly positioned within the outer glass cone so that when illuminated a radiating reflection fans out across the surface, reminiscent of the way a peacock's plumage.

Fuse

Fuse lamps combine Italian craftsmanship with the essence of Nordic aesthetics, in a perfect blend of materials and style. The sense of touch and the visual impact play a fundamental role in Fuse lamps design: the soft ceramic creates a stylistic continuum with the small wooden hat that lights up when the lamp is on, giving warmth to the whole room.

Raso

The Raso line features two unique design lamps made of glass. Inspired by the softness of a silky texture, they give a suffused and delicate illumination thanks to the contrasting clear and frosted glass which defines the design. Available in pink, grey, white and transparent to meet many tastes, Raso lamps are exclusive pieces to give a touch of style to various living spaces from the bathroom and the bedroom to the shop and the restaurant alike.
