

Rubineria in acciaio inossidabile AISI 316L, disponibile nelle versioni progressiva, bicomando e termostatica. Nata con l'intento del progettista di "pulire del superfluo" e raccontare esclusivamente l'"essenziale", è composta da un cilindro di 60 mm come impugnatura per il controllo della temperatura, e un altro di soli 18 mm per il trasporto dell'acqua. Nessun elemento addizionale (la collezione non prevede l'utilizzo delle rosette), un unico materiale, l'acciaio. Caratteristica della collezione, le bocche di erogazione installate in linea con le maniglie si trovano allineate al bordo inferiore del comando per conferire un aspetto volutamente asimmetrico.

Le bocche di erogazione lavabo e bidet sono dotate di aeratori a risparmio idrico a 3,2 l/min ideali qualora siano richiesti prodotti conformi alla certificazione LEED. Gli aeratori a risparmio idrico sono indicati con l'icona ad una goccia. Le bocche di erogazione per il riempimento vasca, sono fornite di rompigetto a 18,5 l/min (privo di limitatore di portata), di seguito indicate con l'icona a tre gocce.

Un'ampia scelta di comandi remoti e gruppi doccia consente infinite combinazioni con le erogazioni FREE IDEAS: bocche, soffioni e doccette permettono di configurare e personalizzare il prodotto.

Tutti i prodotti della collezione OPUS sono disponibili nelle varianti satinato e lucidato e in tutte le finiture speciali CEA (Black Diamond, Bronzo, Rame e Light Gold) ecologiche e biocompatibili.

The taps collection, made of AISI 316L stainless steel, is available with progressive, dual handle and thermostatic mixers. Created with the intent of the designer to "clean the superfluous" and tell only the "essential": a cylinder of 60 mm as a handle for temperature control, another of only 18 mm carries water. No additional elements (the collection does not include the use of rosettes), a single material, steel. The main feature of the collection is the composition: the spout mounted/installed in line with the handles are aligned to the lower edge of the remote control, that gives to OPUS a deliberately asymmetric appearance.

The spouts for washbasin and bidet are equipped with water saving aerators of 3.2 l/min ideal should a LEED certification is required. All water-saving aerators are indicated by the icon showing one single drop. The spouts for tub filling are equipped with a flow straightener of 18.5 l/min without flow restriction, indicated below by the icon showing three drops.

A wide choice of remote controls and shower sets allows endless combinations with FREE IDEAS outlets: spouts, shower heads and hand showers allow you to configure and customize the product.

All the products of the OPUS collection are available in the standard satin and polished finish and in all CEAs special finishes (Black Diamond, Bronze, Copper and Light Gold) guaranteeing an ecological and biocompatible solution.

<b>KD</b>	<b>BLACK DIAMOND</b>	
<b>Z</b>	<b>BRONZO / BRONZE</b>	
<b>P</b>	<b>RAME / COPPER</b>	
<b>X</b>	<b>LIGHT GOLD</b>	

### FINITURA BLACK DIAMOND

Esclusiva finitura nera di CEA per l'acciaio inossidabile effettuata tramite trattamento di deposizione per evaporazione. Enfatizza le naturali qualità del materiale risaltandone la finitura satinata o lucidata. Un film biocompatibile a base di grafite e polvere di diamante, aumenta la lucentezza e il grado di durezza della superficie. Ne conseguono maggiore resistenza a soluzioni acide, basiche e solventi, incolumità verso scalfitture e graffi, autolubrificabilità rispetto ai depositi calcarei dell'acqua.

### BLACK DIAMOND FINISH

Exclusive CEA black finish for stainless steel resulting from a deposition process through evaporation. It emphasizes the natural qualities of the material, highlighting the satin or polished finish. A biocompatible film based on graphite and diamond powder, increases the gloss and the hardness of the surface. The result is an extraordinary resistance to acid, basic solutions and solvents, safety from nicks and scratches, self-lubrication against water lime scales.

### BLACK DIAMOND OBERFLÄCHE

Diese exklusive CEA schwarze Ausführung für Edelstahl, findet durch einer biokompatiblen Behandlung, bzw. Verdunstung statt. Dieser Prozess erhöht die natürlichen Qualitäten der Materialien und lässt die satinierte oder polierte Oberfläche besser wirken. Ein biokompatiblen Film, aus Graphit und Diamant-Pulver gemacht, erhöht das Glänzen und die Härte der Oberfläche. Wie Edelstahl, auch die gewählte Oberfläche kennzeichnet sich durch gute Widerstandsfähigkeit gegen Temperatur und Feuchtigkeit, Kratzer, Säuren und Salz.

### ACABADO BLACK DIAMOND

Acabado negro del acero, exclusivo de CEA, realizado a través de un tratamiento de deposición por evaporación. Enfatiza la calidad natural del acero inoxidable, resaltando sus acabados satinado y brillo. Una película bio compatible a base de grafito y polvo de diamante, aumenta el brillo y el grado de dureza de la superficie, consiguiendo mayor resistencia a las soluciones acidas, seguridad contra los rasguños y las rallas, auto lubricado respecto a los depósitos calcáreos.

### FINITION BLACK DIAMOND

Exclusive finition noire de CEA pour l'acier inoxydable réalisée à travers un traitement de déposition par évaporation. Elle renforce les qualités naturelles du matériau de base accentuant en même temps l'effet satiné ou poli de l'acier. Une pellicule éco-compatible à base de graphite et de poudre de diamant augmente le brillance et la dureté de la surface. Il en résulte une résistance importante aux solutions acides, basiques et alcalines, aux rayures et aux égratignures et une autolubrification par rapport aux dépôts de calcaire de l'eau.

### FINITURA RAME / BRONZO / LIGHT GOLD

Finitura applicata all'acciaio inossidabile che enfatizza le naturali qualità del materiale risaltandone la finitura satinata o lucidata. Effettuata tramite trattamento di deposizione per evaporazione, garantisce durezza, lucentezza attraverso un film biocompatibile che riveste la superficie.

### COPPER / BRONZE / LIGHT GOLD FINISH

Stainless steel finish that emphasize the natural qualities of the material, highlighting the satin or polished treatments. Resulting from a deposition process through evaporation, it guarantees the hardness and the gloss through a biocompatible film that coats the steel surface.

### KUPFER / BRONZE / LIGHT GOLD OBERFLÄCHE

Diese Ausführungen für Edelstahl, erhöhen die natürlichen Qualitäten der Materialien und lassen die satinierte oder polierte Oberfläche besser wirken. Dieser Prozess wird durch einer Metalldeposition Verdunstung ausgeführt und garantiert Härte und Glänzen dank einem Biokompatiblen Film, der die Oberfläche beschichtet.

### ACABADO COBRE / BRONCE / LIGHT GOLD

Acabado del acero inoxidable que enfatiza la calidad natural del material resaltando sus acabados satinado y pulido. Realizado a través de un tratamiento de deposición por evaporación que asegura mayor resistencia y mayor esplendor del material gracias a una película bio compatible que reviste la superficie.

### FINITION CUIVRE / BRONZE / LIGHT GOLD

Finition appliquée à l'acier qui renforce les qualités naturelles du matériau de base et en même temps en accentuant l'effet satiné ou poli de l'acier. Elle est réalisée par un traitement de déposition par évaporation pour garantir une dureté et une brillance à travers une pellicule éco-compatible qui revêt la surface.

Variazioni di colore o sfumature non sono da considerarsi difetto di produzione ma una caratteristica legata al processo di lavorazione, che mantiene il materiale biocompatibile ed ecologico. Le variazioni cromatiche intese come sfumature del tono del colore sono possibili per effetto dell'ossigenazione del materiale a contatto con l'aria, effetto riscontrato in particolare nelle finiture del BRONZO e del RAME. Il viraggio del colore conferisce al prodotto profondità ed un effetto ancora più naturale.

Color and nuance variations are not to be considered manufacturing defect, but a feature linked to the working process that keeps the material biocompatible and ecological. Chromatic variations in sense of nuances in color tone occur, due to the effect of the material's oxygenation when exposed to the ambient air - effect found in particular in BRONZE and COPPER finishes. Color change creates the product's depth and makes it even more natural.

Tutti le doccette con flessibile in acciaio e realizzate in finitura speciale mantengono il flessibile in finitura acciaio. È possibile abbinare alle finiture speciali della rubinetteria, i flessibili in gomma silconica nelle nove varianti di colore.

All hand showers with stainless steel hose and produced in special finish keep the hose in stainless steel finish. It is possible to match the special finishes of the taps with the silicon hoses in our range of 9 colors.

## ESSENZE LEGNO / WOOD ESSENCES / HOLZ ESSENZEN / ESENCIAS DE MADERA / ESSENCES BOIS

<b>WE</b>	<b>WENGÉ / WENGE</b>	
<b>N</b>	<b>NOCE CANALETTO / CANALETTO WALNUT</b>	
<b>T</b>	<b>TEAK BIRMANO / BURMA TEAK</b>	
<b>O</b>	<b>ROVERE / OAK</b>	

### ESSENZA

#### ROVERE / TEAK BIRMANO / NOCE CANALETTO / WENGÉ

Le quattro esclusive essenze CEA si abbinano alle collezioni GIOTTO, ZIQQ e BAR. La scelta ecosostenibile si riflette sia nel processo di selezione che nella lavorazione del prodotto. Il legno massello stagionato, proveniente da foreste certificate, è trattato con vernici all'acqua brevettate, prive di solventi. Come l'acciaio inossidabile, anche il legno si contraddistingue per durezza, ottimo grado di stabilizzazione rispetto ad umidità e temperatura, impermeabilità e resistenza a soluzioni acide e saline. Queste caratteristiche rendono il prodotto adatto anche all'ambiente marino.

#### OAK / BURMA TEAK / CANALETTO WALNUT / WENGE ESSENCE

The four exclusive wood species CEA teams up with GIOTTO, ZIQQ and BAR collections. The eco-sustainable approach is reflected in the selection of raw materials and manufacturing processes. Mature solid wood, sourced from certified forests, is treated with patented water-based and solvent-free varnishes. Similarly, to stainless steel, the wood also stands out for its hardness, together with an excellent degree of stability in the presence of humidity or extreme temperatures and resistance to acidic and saline solutions. These characteristics also make our products ideal for the marine environment.

#### EIKENHOLZ / BURMA TEAK / CANALETTO NUSSBAUM / WENGE ESSENZEN

Diese sind die vier neuen exklusiven Essenzen die CEA, mit den Kollektionen GIOTTO, ZIQQ und BAR kombiniert. Diese ökologische Auswahl spiegelt sich nicht nur in der Selektionsprozess sondern auch in der Produktsbearbeitung. Das Massivholz, das aus Zertifizierten Wälder kommt, wird mit patentierten Wasser-Lacklosenmittel behandelt. Wie Edelstahl, kennzeichnet sich das Holz durch Härte, guten Stabilisierungsgrad gegenüber Feuchtigkeit und Temperatur, Wasserdichtung und Widerstandsfähigkeit gegen Säuren und salzige Lösungen, deswegen sind diese Holzessenzen auch für die Seeumwelt geeignet.

#### ESENCIA ROBLE / TECA BIRMANO / NOGAL CANALETTO / WENGÉ

Cuatro acabados exclusivos que CEA combina a los mandos de las colecciones GIOTTO, ZIQQ y BAR. La elección ecosostenible se refleja tanto en el proceso de selección como en el de mecanización del producto. La madera maciza que proviene de selvas certificadas, está tratada con barnices patentadas a base de agua sin disolventes. Al igual que el acero inoxidable, la madera también se caracteriza por su dureza, excelente grado de estabilización frente a la humedad y temperatura, impermeabilidad y resistencia a soluciones ácidas y salinas. Estas particularidades, hacen que el producto también sea apto para uso en el exterior.

#### ESSENCE CHÊNE / TECK BIRMAN / NOYER CANALETTO / WENGE

Ce sont les quatre exclusives essences que CEA applique aux manettes des collections GIOTTO, ZIQQ et BAR. La choix éco-durable se réfléchit dans le processus de sélection et usinage du produit. Le bois dur mûré provient des forêts certifiées et il est traité avec des vernis à base d'eau brevetées, sans solvant. Les essences, de la même façon que l'acier inoxydable, sont caractérisées par la dureté, l'excellente résistance aux variations d'humidité et de température, l'imperméabilité et la résistance bien aux solutions acides que salines. Ces caractéristiques rendent le produit parfait pour toutes les conditions, même dans les zones maritimes.

## ICONE / ICONS / IKONEN / ICONOS / ICÔNES

**Gli articoli contrassegnati da questo simbolo sono a risparmio idrico (da 5 l/min a 10 l/min)**

Articles marked with this symbol are water saving (from 5 l/min to 10 l/min)

Die Artikel mit diesem Symbol gekennzeichnet, sind für Wassersparen ausgedacht (von 5 l/Min bis 10 l/Min)

Los artículos marcados con este símbolo, son de ahorro energético (de 5 l/min a 10 l/min)

Les articles marqués par ce symbole sont à économie d'eau (de 5 l/min à 10 l/min)

**Gli articoli contrassegnati da questo simbolo sono adatti all'utilizzo in cucina e lavanderia (da 10 l/min a 20 l/min)**

Items marked with this symbol are suitable for kitchen and laundry (from 10 l/min to 20 l/min)

Die Artikel mit dem Symbol gekennzeichnet, können Sie für Washküche und Küche benutzen (von 10 l/Min bis 20 l/Min)

Los artículos marcados con este símbolo se pueden utilizar para cocina y lavadero (de 10 l/min a 20 l/min)

Les articles marqués par ce symbole peuvent être utilisés pour la cuisine et la buanderie (de 10 l/min à 20 l/min)

**Gli articoli contrassegnati da questo simbolo sono adatti all'utilizzo per il riempimento vasca (≥ 20 l/min)**

Items marked with this symbol are suitable for bathtub (≥ 20 l/min)

Die Artikel mit dem Symbol gekennzeichnet, können Sie für Badewanne-Füllung benutzen (≥ 20 l/Min)

Los artículos marcados con este símbolo se pueden utilizar para llenado de bañera (≥ 20 l/min)

Les articles marqués par ce symbole peuvent être utilisés pour la baignoire (≥ 20 l/min)

**Gli articoli contrassegnati da questo simbolo sono ad alta portata (≥ 25 l/min)**

Articles marked with this symbol are high water flow (≥ 25 l/min)

Die Serien mit diesem Symbol gekennzeichnet, ermöglichen eine hoher Durchflussrate (≥ 25 l/Min)

Los artículos marcados con este símbolo, son de alto caudal (≥ 25 l/min)

Les articles marqués par ce symbole sont à haut débit d'eau (≥ 25 l/min)

**Gli articoli contrassegnati da questo simbolo necessitano di collegamento elettrico**

Items marked with this symbol need an electrical connection

Die Artikel mit dem Symbol gekennzeichnet brauchen ein elektrische Verbindung

Los artículos marcados con este símbolo necesitan de conexión eléctrica

Les articles marqués par ce symbole nécessitent d'un branchement électrique

**Articoli che necessitano di parti incasso (BOX / INC / PWF / PTR / UCS) secondo quanto specificato dalla tabella prodotto**

Articles that need (BOX / INC / PWF / PTR / UCS) built-in parts as specified in the product chart

Artikel, die Einbaukörper (BOX / INC / PWF / PTR / UCS) wie auf der Produktentabelle, brauchen

Artículos que necesitan partes empotradas (BOX / INC / PWF / PTR / UCS) como especificado en la tabla de productos

Articles qui nécessitent d'un corps à encastrer (BOX / INC / PWF / PTR / UCS) comme indiqué sur le tableau des produits

**Articoli installabili a 90° e a 180°. È possibile ruotare la parte esterna, rispetto all'immagine riportata nel listino,**

**previa rotazione della sua parte ad incasso. Alcuni prodotti necessitano di apposita chiave di rotazione per le cartucce**

**da acquistare a parte (vedi scheda tecnica del prodotto)**

Products that can be installed at 90° and 180°. It is possible to turn the external part, compared to the drawing in the pricelist with the prior rotation of its built-in part. Some products require the turning key for cartridges that has to be ordered separately (see product's technical drawing)

90° und 180° installierbare Artikel. Es ist möglich, das Externe Teil zu drehen, wenn auch das Unterputzteil gedreht wird.

Einige Produkte benötigen einen Sonderschlüssel für die Kartusche, separat bestellbar (bitte technische Datenblätter sehen).

Artículos que son instalables a 90° y a 180°. Es posible rotar la parte externa, con respecto a la imagen que figura en el listado,

previa rotación de su propio cuerpo empotrado. Algunos productos requieren de una llave respectiva

para los cartuchos que se adquieren por separado (véase ficha técnica del producto)

Articles qui peuvent être installés à 90° et à 180°. Il est possible de pivoter la partie externe, respectivement à l'image présente

sur le catalogue, suite à la rotation de son corps à encastrer. Certains produits nécessitent d'une clé spécifique pour les

cartouches qui doit être achetée à part (voir fiche technique du produit)

**Articoli con opzione di staffa di fissaggio ausiliaria (INC03) per fissaggio su pareti e controsoffitti**

Articles with optional auxiliary fixing bracket (INC03) for mounting on false ceilings and walls

Artikel mit Befestigungselement (INC03) für die Montage an Wänden und Zwischendecken

Artículos con elemento opcional de fijación auxiliar (INC03) para montaje en paredes y techos

Articles avec élément optionnel de fixation auxiliaire (INC03) pour le montage aux murs et faux-plafonds

**Articoli con opzione di staffa di fissaggio ausiliaria ad "L" (FIX01) per PTR, PWF, UCS e INC. Permette la regolazione**

**della rubinetteria in profondità, verso l'alto e il basso, e verso sinistra e destra per fissaggio su pareti e controsoffitti**

Articles with optional auxiliary fixing with double "L" bracket (FIX01) to be used with built-in parts PTR, PWF, UCS e INC.

It allows faucet regulation in depth, upward and downward, leftward and rightward, for the fixing on false ceilings and walls

Artikel mit optionalem Befestigungselement "L" Form (FIX01), das zusammen mit Befestigungstütze von Einbaukörper PTR,

PWF, UCS und INC benutzt wird. FIX erlaubt die Regulierung des Produkts nach oben, unten, links und rechts während

der Montage an Wänden und Zwischendecken

Doble elemento opcional de fijación auxiliar a forma de "L" (FIX01) que se puede añadir a PTR, PWF, UCS e INC.

FIX permite la regulación y la fijación de la grifería en profundidad, hacia arriba y abajo, y hacia izquierda y derecha

para montaje en paredes y techos

Articles avec fixation auxiliaire optionnelle en forme de "L" (FIX01) pour PTR, PWF, UCS e INC. FIX permet le réglage et la

fixation de la robinetterie en profondeur, vers le haut et le bas, et vers droite et gauche pour le montage aux murs et faux-

plafonds

**Kit di flessibili e raccordi, alternativi ai corpi incasso BOX (scatole vuote), per l'installazione di gruppi rubinetteria a bordo vasca**

Hoses and connections kits, alternative to BOX built-in parts (empty boxes), for the fixing of rim-mounted mixer sets

Schlauche und Verbindungen Kit, alternativ zu BOX Einbaukörper (leer box), für die Installation von Wannearmaturen

Kit flexos y conexiones, alternativos a los cuerpos empotrados BOX (caja vacía), para instalación de la grifería para borde bañera

Kit de flexibles et raccords, en alternative aux encastrements BOX (boîtes vides), pour l'installation des groupes sur bord baignoire

**Articoli nuovi rispetto al listino precedente**

These articles are new compared with the previous price list

Neue Artikel im Vergleich zur vorherigen Preisliste

Artículos nuevos en comparación con la lista anterior de precios

Articles nouveaux en comparaison au tarif précédent
