NOKEN CLEAN RIMLESS

EFFICIENT FLUSH

This technology flushing all the inside of the toilet, enhancing the product's efficiency and getting to all corners.

EASY CLEAN

The elimination of the flange guarantees greater continuity of the surfaces inside the toilet, easing its cleaning and a lesser use of disinfectants.

L'élimination de la bride assure une meilleure continuité des surfa-ces de l'intérieur de la cuvette. Cela permet de faciliter le nettoyage

NO SPLASH

The accurate conduction of the water on the surfaces of the bowl of the toilet, with the right strength, confers an exceptional operation without splashing. L'acheminement précis de l'eau sur les surfaces de la cuvette avec

Noken CERAMICA special glaze that, thanks to ceramic firing at 1250 °C, makes it solid and unalterable. A totally hygienic barrier that creates a smooth surface.

Un émail spécial qui, grâce à la cuisson de la céramique à 1250°, la rend solide et inaltérable. Une barrière totalement hygiénique qui crée une surface lisse.

MORE SILENT
Thanks to its flushing system, it increases comfort as it significantly reduces the noise of flushing operations.

Grâce à son système d'évacuation, il améliore le confort du produit en réduisant considérablement le bruit de la chasse d'eau.

INVISIBLE FIXING

The innovative concealed fixing for suspended toilets by Noken gives the product greater visual cleanliness, allowing for easier installation and higher safety.

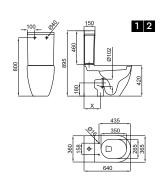

Grâce à la nouvelle fixation invisible sur les cuvettes suspendues de Noken, le produit procure une sensation de propreté, tout en étant plus farie à installer et plus sûre.
